

bügal.

designed by Bence Ridder and Calvin Middel

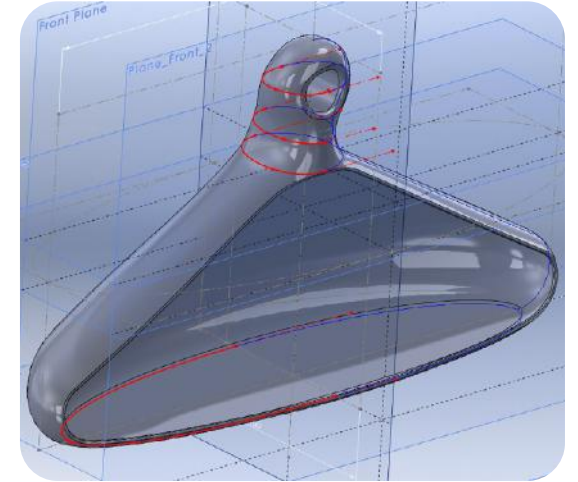

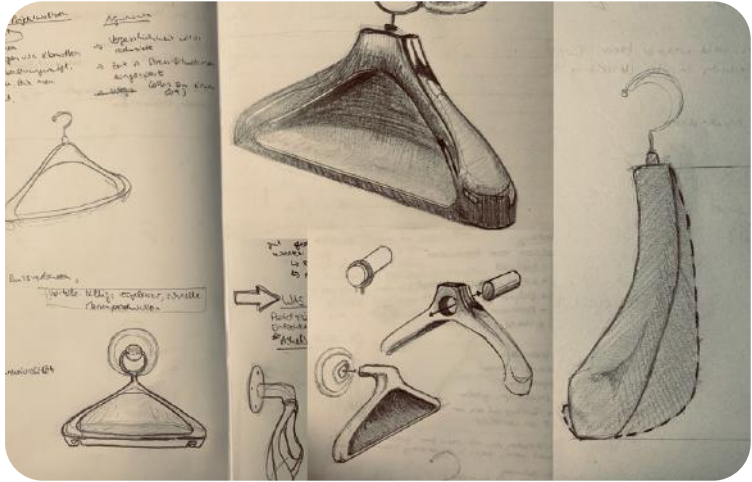

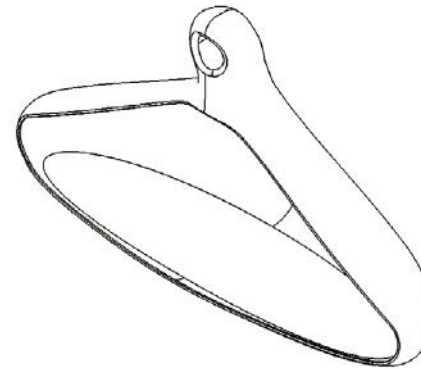

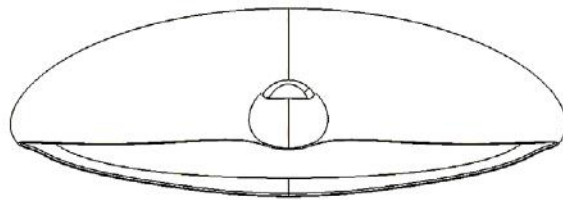

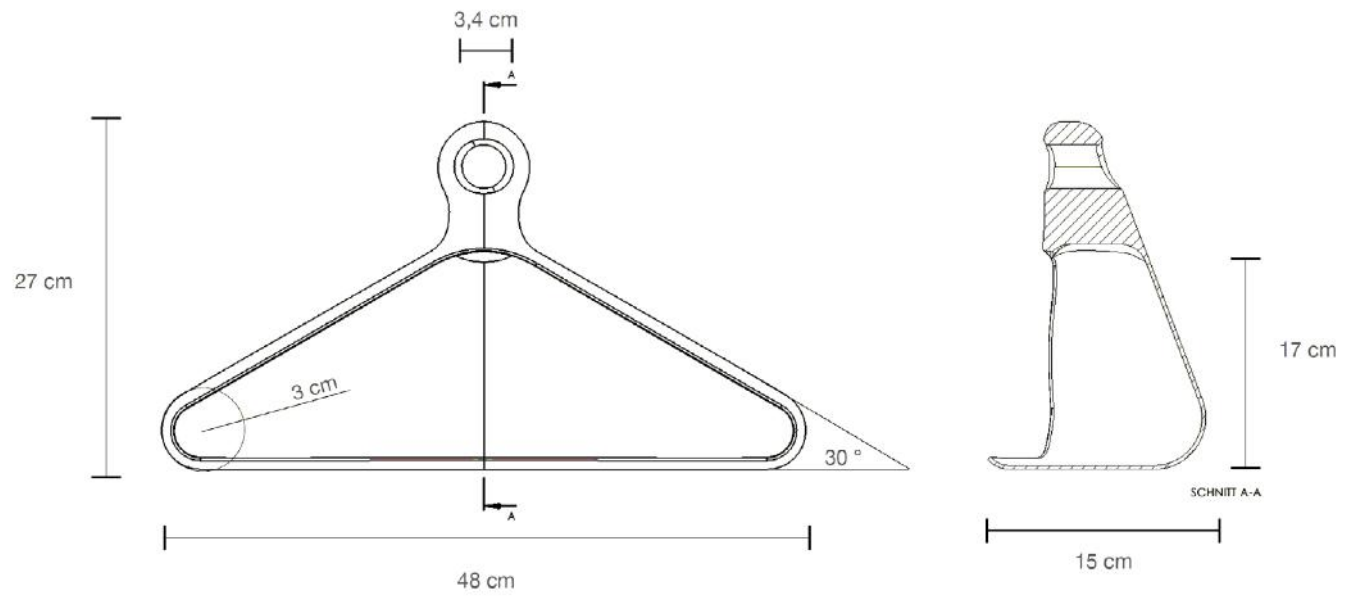

WHAT - BÜGAL is the symbiosis of a clothing hanger and a shelf, embodied in an intelligent design. The multifunctional furniture allows hanging clothes and at the same time provides storage for smaller everyday items.

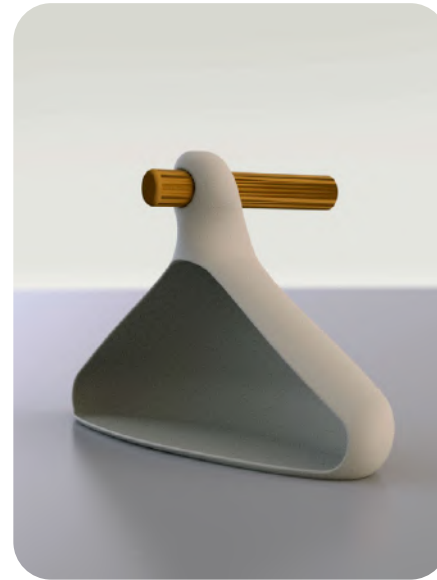

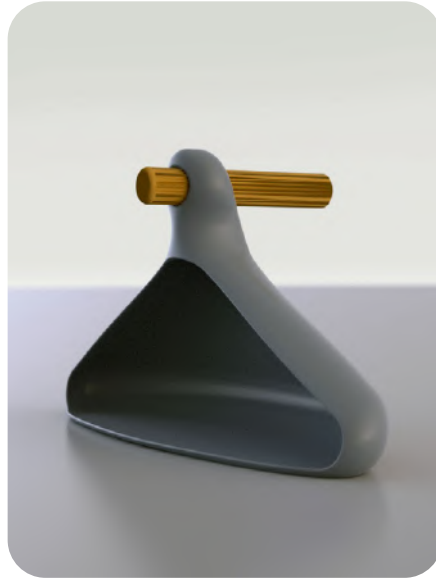

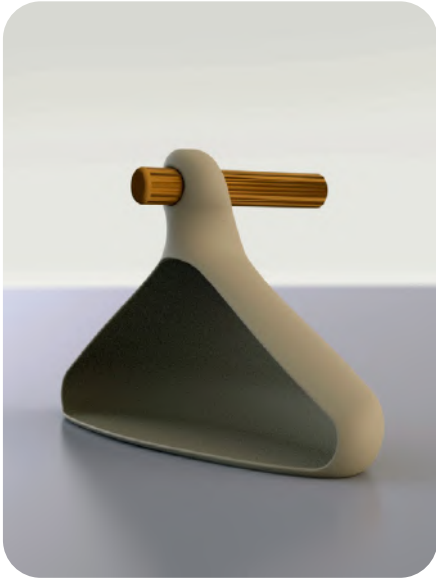

WHY- BÜGAL wants to be a furniture piece that combines useful functions with the purpose of having a positive impact on users everyday life. Also it can be seen as an aesthetic and unique looking piece of furniture.
